

ACTION PLANNING

“Journey of 1,000 steps begins with a single step.” Lao Tzu

Needs: How could your community benefit from youth-adult partnerships? (Would having more youth on boards be helpful? What if youth were active in determining programs?) How could youth create a more livable community - one that youth identify as their own?

Purpose: What do you hope young people will get out of this?

What - Overview: Briefly, how are you going to accomplish your purpose? (leadership conference, training in the state)

Who? Is it just this group or others as well? Who are you going to need to approach to make sure this will happen? Other adults? Questioning other youth?

ACTION PLANNING

Timeline: How long will this take? What are the different key times that need to be considered? If it is an event or events, when do you hope they will happen? Begin at the end to figure out when things need to get done.

Materials/Budget: Think about large issues as well as some of the small, such as a place to hold the event as well as the materials needed at the actual event. If it takes resources, where will they come from?

Evaluation: How are you going to measure whether you've met your purpose?
